TAFFETA—S. when first opened are a very unusual tone of brown shaded with blue and gold, later they are soft fawn color. F. fawn shot with blue, giving the whole flower an appearance of changeable blue and gold which is very charming and unusual. Flowers are large, borne on tall stems and the plant is vigorous and carries many flowering stalks.

2.00

TREADOR—S. brilliant orange, shot with bronze. F. rich, glowing red. The strong Spanish coloring of this iris and its very large sturdy flowers, combined with the vigorous growth of the plant make it a most valuable border iris.

SIBIRICA SEEDLINGS.

MADAME BUTTERFLY—This is the true Siberian type, very tall and graceful, the flowers lightly carried on long branching stalks, about two and a half inches across and of a lovely clear porcelain blue, without a trace of purple, nearly five feet tall.

2.50

SUNNYBROOK—This is a cross between the two Sibirica Orientalis irises, Blue King and Snow Queen, with the taller growth, larger flowers and spreading falls of the latter, but the flowers are of the exquisite shade of greyish blue known as Alice blue, a most rare color in the garden. The plant is very vigorous and increases rapidly and carries many flower stalks.

IRIS SPURIA ALBA —S. and F. pure, glistening white, the flowers have very long narrow petals, very different in type from the Germanicas.	.35
IRIS SPURIA, MRS. A. W. TAIT —(syn. Longipetala Superba) Soft porcelain blue, with very long, pale blue falls, having a golden blotch at the base, free bloomer and very hardy.	.35

Price per dozen, 10 times price of one.

ORCHRELEUCA—Ivory white flowers with a deep golden blotch on the falls, petals long narrow, very hardy, grows 4 feet. .35

SHELFORD GIANT—One of Sir Michael Foster's hybrids, a cross between Ochreleuca and Aurea, (species.) The S. are ivory white with yellow down the centre, F. deep golden yellow, the whole flower which measures 6½ inches across is finely crimped on the edges and the plant is extremely vigorous, growing over 5 feet tall in heavy soil, a wonderfully beautiful and distinct iris, blooms the middle of June. Very scarce. 5.00

TECTORUM—The flower is more the shape of the Germanica types, but the S. have a jagged crest white with brown marking, the flower itself is blue purple and has splashes of a darker shade. A very lovely iris. .35

TECTORUM, ALBA—A most exquisite iris, like the type except that it is pure white and the crest is marked with gold. With the slight protection given by a hedge or strong growing plants, this iris is perfectly hardy and a rarely lovely flower. Both Tectorum and Alba seed freely and come perfectly true to type. 2.00

GRACILIPES—Another iris of the crested family, a small and delicately beautiful thing. It likes a somewhat cool situation where the tiny rhizomes will not be parched with drought. When established will produce numerous pinkish lilac flowers on a branching stem from 9 inches to a foot in height, the grassy foliage about the same height. The flowers are flat in shape like a single Japanese iris and have a tiny crest of white. .35

CRISTATA—Also of the Evansia or crested family, is a native of our country and is a small creeping species growing only about 3 inches in height, increases rapidly in a well drained soil, and is a rich amethyst blue in color. .35

JAPANESE IRISES.

These bloom after most of the other irises are through and extend the season into July. They are taller and have much larger flowers than the bearded irises, often measuring from nine to eleven inches across. They are perfectly hardy.

ALIDA LOVETT—One of the most beautiful in my collection. Six petals of soft French grey, delicately veined clear blue. 1.00

Price per dozen, 10 times price of one.

AMETHYST —3 very large wavy petals of most exquisite, soft lavender.	.65
AZURE —Double, immense, beautifully waved flowers of soft mauve blue, with dark halo surrounding the yellow blotch at throat.	.75
BETH HALLOCK —Double, white with a wide band of plum color at edge, a tall and striking flower.	.25
BUTTERFLY —6 large, overlapping petals of ivory white, curiously and delicately veined with pale blue throughout.	.50
CRIMSON TUFT —3 petals of rich, dark red purple.	.35
DAGMAR GEORGESON —3 petals, very large and drooping of rich royal purple.	.50
DANCING BEAR —6 large petals of dark blue, heavily veined with white.	.35
DELICATA —A very beautiful and distinct variety with 6 petals, white with a broad halo of pink in centre.	.35
KUMONA-NO-SORA —3 immense white, crepy petals with sky blue halo surrounding the yellow blotch at throat. A somewhat smaller edition of Morning Mists.	.50
LESTER LOVETT —Very large double flower of bright, clear blue with white halo, a very fine variety.	.75
MAHOGANY —Double, very dark, red purple, veined maroon.	.35
MORNING MISTS —This is the most magnificent of the single Japanese irises, often measuring 12 inches across. The petals are of a lovely thick crepy texture, very wavy and pure frosty white with a sky blue halo lightly dusted across the centre of the flower.	1.00
MRS. LOVETT —6 enormous petals, lavender veined with rich purple and margined with pure white; canary yellow splash in centre. A magnificent flower of exquisite form and color.	1.00
NORMA —Double, exquisite, silky, lavender pink with clear blue halo surrounding yellow blotch at base of petals. Very large flower.	.75

Price per dozen, 10 times price of one.

OYODO —Dark, black purple, 3 very large petals with a gold blotch at throat.	.75
PAINTED LADY —A very tall and handsome flower, 6 large petals of white, sometimes veined with plum, inner petals edged with plum.	.35
